QUESTIONS PALMER'S JUDGMENT

Frank Morrison of A. F. of L.
Finds No Evidence of I.
W. W. Activities in
Outlaw Strike.

(By Associated Press)
Washington, April 16—Attorney General Palmer's conclusion that the outlaw strike of the railroad men is traceable to activities of radical revolutionists was sharply challenged by Frank Morrison, the secretary of the American Federation of Labor in a statement here today. "An independent investigation by the railroad executives," said Mr. Morrison, "reveals that it is a plain ordinary strike for more pay. If there is enough revolutionary radicals to create such a strike as now exists the condition would be serious indeed. No such power is behind the strike. The absolute failure of the Attorney General to grasp the true situation is amazing. The only development of the day except the organization of the railroad labor board, who will at once take up the whole question of wages at the point where the bi-partisan board left off. While the leaders of the railroad men who work about the unions in districts," Mr. Morrison said that it should not prevent an honest view of the situation on the part of the railroad men. The railroad executives know that from data gathered by men in the field with the men on the strike could not involve any revolutionary condition.

LIBERTY AND VICTORY BONDS AT LOW LEVEL

Corporations Realizing By Sacrificing Their Holdings to Get 'Additional Capital'

New York, April 16—Liberty and Victory bonds continued to decline today, the first 4-1-1s being the only one of the nine issues not to have made a new low record by noon. The railroad strike, like the steel strike, is said to have caused some selling, and corporations have been realizing on their holdings to secure additional capital but the principal reason assigned is the pending issue of the treasury certificates of indebtedness at 4 and 5-1-1 per cent.

BODY BUILDING TONIC HOLDS VAST STORE OF FOOD VALUE

Scientists Prove Father John's Medicine
Is Five Times More Nourishing Than
Many Common Foods We Eat.

That Father John's Medicine contains a vast store of food value and strength-building, energy-producing elements is established by recent scientific tests. This rich nourishment is in a form which is more easily taken up by the system than the common foods we eat and has many times greater food value.

When a scientist states the food value of any product, he does so in terms of "calories" which he defines as the amount of heat used to raise the temperature of one gram of water one degree. A teaspoonful of Father John's Medicine contains 25,715 calories. The same quantity of steak contains only 10,714 calories. By these tests also it was proven that Father John's Medicine is five times more nourishing than an equal quantity of cod fish, seven and one-half times more nourishing than an equal quantity of oysters and almost six times more nourishing than pure milk.

Because it supplies this nourishment which you do not obtain from your food and supplies it in the form which the system most easily takes up and turns into tissue, muscle, flesh and strength, Father John's Medicine has had more than sixty years of success as a food tonic for those who are weak and run down.

It is guaranteed that Father John's Medicine positively does not contain any alcohol or any dangerous, habit-forming drugs or opiates. It is a pure and wholesome, nourishing tonic food—a doctor's prescription, not a patent medicine. Begin taking it today.

NEW SOCIETY DAUGHTERS OF 1812 FORMED

The annual meeting of the Daughters of 1812 of New Hampshire was held at the home of Mrs. Wallace Dana Smith, 426 Wabash street, on Thursday afternoon, April 15th.

Mrs. Charles H. Spooner, of Charlestown, N. H., the State president presided.

The meeting opened with the Lord's prayer, followed by the singing of "America."

Reports of various officers were read and approved.

By-laws, prepared by a committee, were read and approved.

The following officers were elected for the coming year:

Mrs. Charles H. Spooner, president; Mrs. Sarah M. Haley, 1st vice president; Mrs. Frank B. Pike, 2nd vice president; Mrs. Robert M. Haines, secretary; Mrs. Stanley L. Otis, treasurer; Mrs. Wallace Dana Smith, registrar; Mrs. L. C. Heely, historian.

Mrs. Charles H. Spooner is the wife of Col. C. H. Spooner, formerly president of Newfield University, and while living in Vermont, she was state president of the Daughters of 1812 of that state, for several years.

There used to be a flourishing society in New Hampshire but it disbanded several years ago. The society was reorganized April 14th, 1919 and officially declared organized at Washington of the National Executive Board April 21st, 1919.

In the president's address Mrs. Spooner gave a short history of the notable events of the War of 1812. She spoke of England's failure to keep promises and said the United States was "betrayed" on land and sea; our ships were held up and searched of by high seas and native born Americans were pressed into British service; if they refused, imprisoned and treated with great brutality at Dartmouth prison, where hundreds died.

In the by-laws adopted at the annual meeting the following paragraph appears: "The object of this society shall be to perpetuate the memory of the patriots who, either on the battlefield or at the bedside did their duty during the struggles which followed the close of the Revolution Jan. 14, 1784, through the war of 1812, till the 24th of Feb. 1815; thereby securing for posterity the privileges and blessings of freedom and independence; and in their name to do patriotic, philanthropic and educational work."

Boosey and Dewey both spoke of the battle of Lake Champlain as the most remarkable battle in the world, when MacDonough, a mere boy, with inexperienced men defeated the British and established satisfactory relations with the mother country.

Mrs. Spooner spoke of the many men in this vicinity who had served in the 1812 war and said that Mrs. Wallace D. Smith had been appointed, a year ago, organizing regent of a chapter to be formed in Portsmouth. The necessary number having been secured the chapter was declared "organized" and Mrs. Smith spoke on what constitutes "eligibility" for the Daughters of 1812: civil service in various capacities after the Revolution or during the War of 1812; military or naval service in Wyoming Valley, Penn. 1781-87; they of the Indians 1784-1815; Whiskey insurrection, Penn. 1793; war with France (undeclared) 1798-1800; San Juan Expedition, Louisiana 1806; attacks of British warship Leopard upon United States Frigate Chesapeake 1807; embargo troubles, Lake Champlain 1805; engagement between U. S. Frigate "President" and British ship, "Little Bel" 1811; expedition against Lacolle Point 1814; war with Turkey Powers 1801-05 and 1816. War with Great Britain 1812-15; Service in the army or navy as officer or private, or the giving of notable aid to the army or navy. Mrs. Smith has been making a very thorough search for the history of service of the New Hampshire men who served in the 1812 war and has accumulated a fine collection of data in regard to records of all soldiers; has not only records of service but frequently essential historical facts about the men; master rolls, lists of officers and privates; list of wounded and dead in naval battles. This invaluable information she is willing to share with the descendants of the heroes who gave either civil or military service.

Mrs. Spooner called upon Mrs. Haley to christen the chapter. Mrs. Haley spoke of the growth of the Colonial History and of the great value of the

SENATE INVESTIGATORS FIND BIG PROFITS MADE IN SHOES

The investigation into the retail prices of shoes now in progress under the United States senate committee, already has started some stories of exorbitant profits discovered. Little by little, testimony is being secured from all sides that shows the system of overcharging the consumer and it will be surprising if something illuminating does not result. It may be that reason for returning to her former place in the shoe business.

The retailers lately have charged such prices that the buying public is becoming suspicious. While not every dealer may be responsible for profiteering prices, enough have been making "easy money" so easily that their complaint is being heard about buying for the future, believing that under the pressure of the changes of profiteering, the investigations and findings of fair price committees, and more recently the inquiry of the United States senate, prices must come down before long. The conditions with the general spirit of the times is beginning to have an influence on the trade and retail dealers are reported as being so tormented as to keep their doors from opening their goods for the selling season.

Another sign of improvement in the interest of the people who cannot pay fancy prices for the increased manufacturing of shoes of lower grade, making use of these methods and cheap grades of leather which have as "price" in the composition of \$12 for \$20 shoes. It is probable that some new grades of shoes will be offered by fall and at lower prices than those recently asked for the lowest grades. Because they will be made of cheaper leather.

While this turn of the wheel, with its promise of better prices is good for the consumer, it will have a bad effect on the trade, with some new grades of business is reached. Manufacturers generally expect, now, to be working on fall and winter shoes but as orders are being delayed, it is to be expected that later the demand will come and competitors will be such as to force up prices in a natural way. Anyway, the manufacturers fear a congestion of business and a shortage of footwear at the time when it is needed most. Such conditions always are favorable to higher prices.

The reports from all parts of the country show that the buying public is holding back in some sections the re-

1812 war which ended our difficulties with England and then christened the new organization as "The Alice Bradford White Chapter" in honor of one of the most brilliant daughters of New England, who was born in Boston with illustrious ancestors of the New England states, many of whom lived and died in Portsmouth.

Mrs. Wiles married Robert Hall Wiles of Chicago, and she has been accorded every honor in the girl of Illinois; was President, National of the Daughters of 1812 four years and is generally regarded as a future President General of the D. A. H.

As a presiding officer she has no superior; her parliamentary ruling being regarded as flawless; who is a graduate of Cornell and from residence and travel in cosmopolitan, an honor to New England and New Hampshire; hence the name "Alice Bradford White Chapter" Daughters of 1812, state of New Hampshire.

Mrs. Sara M. Haley of South Lee, N. H., has an international reputation as a professional genealogist and has been of great service in re-organizing the state society. She will give her assistance (free) to applicants desiring to establish eligibility to the Daughters of 1812.

Mrs. Smith will furnish applicants with application blanks as she is state registrar as well as chapter regent.

During the afternoon the program was culminated by patriotic musical numbers; and at the close, delicious refreshments were served.

Mrs. Clarence P. R. Jenne of Hartford Conn., is at present the President National; and the annual Association Council will take place at the New Willard Hotel, Washington, D. C. the week of April 28th.

Mrs. Jenne formerly lived in Brattleboro and was organizing state president of the Vermont Daughters of 1812 of that state.

Mrs. Spooner succeeded Mrs. Jenne as state president in Vermont; and has wide experience in club work and in the Colonial Dames; D. A. H. Daughters of 1812 and other patriotic societies and will gladly aid all who desire to join the Daughters of 1812. She may be addressed at Charlestown N. H.

During her stay in Portsmouth she was the guest of Mrs. Wallace Dana Smith.

HELD FOR HAVING 20 BBLs. OF WHISKEY

(By Associated Press)
Boston, April 16—Jeremiah J. Sullivan, a former Boston saloon keeper and C. D. O'Connor his former bartender who were arrested here in connection with the seizure of 20 barrels of whiskey in the Garner's cellar, were held in Federal Court in \$2500 bonds for violation of the prohibitory act.

tail business is very satisfactory, but in general the unrest is evident and less business is being done, though money returns are good. This is due to the high prices and large profits.

In a recent issue, the Shoe and Leather Reporter is inclined to place the blame for the disturbed condition, and the delays forced on retailers and manufacturers on the people.

The agitation for the cheaper shoes all over the country while illogical and based upon complete ignorance of the facts involved, has acted as a powerful deterrent of trade. Retailers are not buying full stock fresh. Their orders are later and smaller. Many dealers they will not buy before July and their orders will be for 50 per cent only of the quantities they usually engage. They do not intend to buy shoes at the high prices necessitated by the increased cost of materials and labor and be compelled to sell them at rates dictated by wandering bands of ignorant investigators. In fear of losses, dealers will play safe. The situation will probably work out after the influence of the price regulation of sugar and coal. Production and distribution will be discouraged when increased output is the only economic cure for high prices.

Undoubtedly the consumers are responsible for the demand for less expensive shoes, and the manufacturers see that they "cannot feel all the people all the time." Cheaper shoes are being made and the demand grows.

For a long time the public has been dissatisfied with the expression "side millions," which was adopted as best expressing the character of the modern woman's boots and shoes. As much taste and originality as formerly had been employed on hats was being diverted to produce footwear which would be as much noticed as headgear.

Now it has reached the point where "Dressmaking Shoemaking" is occupying a place in the economy of the industry, and the Lynn item says: "Dressmaking Shoemaking" means up an Lynn item to the after Easter business. Everybody knows about the dressmaker, she makes something pretty that isn't expensive. Her idea applied to shoes makes "dressmaking shoemaking." A point ahead of "millinery shoemaking" or this new "dress-making shoemaking."

BAD WRITING CAUSE OF R. R. WRECK

Station Agent Wrote Bartonville; Crew Thought It Was Bellows Falls; Ten Were Killed in the Collision.

(By Associated Press)
Brattleboro Vt., April 16—Carelessness of a station agent in writing an order and negligence on the part of the train crew in running past a station are assigned by the State Public Service Commission in a report made public today, as the cause of the collision between a freight train and a passenger train on the Rutland Railroad near Bellows Falls, Mar. 11, which resulted in the death of ten persons. The report says that the word Bartonville, given in an order to the crew of the freight train as the passing point, was so illegibly written by Elmer A. Sanford, station agent at Gasette, that it is doubtful whether a stranger seeing

the word could tell what it was. George Cady engineer and Charles Phillips, conductor of the freight train were negligent in running past Bartonville. Cady was killed with four other trainmen and five passengers in the collision. It was testified that Cady read the order allowed to the men of his crew as Bellows Falls, and Phillips said that while he was in doubt about it being Bellows Falls he did not interfere. The Board did not make any recommendations as to punishment of the men blamed.

HOTEL DANCE HALLS WIN

Boston, April 16—Dance hall licenses are not required for those Boston hotel dining rooms in which dancing is permitted while dining is in progress. Judge Michael J. Murray, presiding in a special session of the Municipal Court, made this decision today in finding Judge P. This was the first case brought by agreement with other hotel keepers. The court's view upholds the claim of the law depart-

FAINTING AND DIZZY SPELLS

The Cause of such Symptoms and Remedy Told in This Letter.

Syracuse, N. Y.—"When I commenced the Change of Life, I was poorly, had no appetite and had fainting spells. I suffered for two or three years before I began taking Lydia E. Pinkham's Vegetable Compound and the liver pills which I saw advertised in the papers and in your little books. I took about twelve bottles of your Vegetable Compound and found it a wonderful remedy. I commenced to pick up at once and my suffering was relieved. I have told others about your medicine and know of some who have taken it. I am glad to help others all I can." Mrs. R. E. Deans, 437 W. Lafayette Ave., Syracuse, N. Y.

What Change of Life is a most critical period of a woman's existence, the annoying symptoms which accompany it may be controlled, and normal health restored by the timely use of Lydia E. Pinkham's Vegetable Compound. Moreover this reliable remedy contains no narcotics or harmful drugs and owes its efficiency to the medicinal extractives of the native roots and herbs which it contains.

ELIOT

Eliot, April 17.—The Eliot Hand Craft Guild, which meets at the Wm. Fogg Library every Tuesday, gave a long-deferred birthday party to Mrs. Martha A. Coleman, at its last meeting April 13. The February storms and trolley blockades, and subsequent bad weather, had prevented the celebration, but the postponement had only added to the ardor of the members to entertain Mrs. Coleman. It was a complete surprise to her, to be greeted with joyous applause, as she came in, and was led to the flower-laden luncheon table in the reading room. With the blazing fire on the hearth, and the beautiful tall clock slowly ticking in the corner, the room made a charming picture. Most of the twenty-five members of the Guild were present, and the luncheon was an unusually gay affair. The dainty place-cards, with original lines pertinent to the occasion, started the merriment and the luncheon of sandwiches, salad, cake and ice cream, and coffee was lingered over with much sociability and enjoyment. One table was reserved for "a shower" for Miss Alta Paul, another member of the Old Road Colony. In view of her approaching marriage to Mr. Wm. Burdett of Kittery, and her table was the center of much interest, with its pile of packages, containing many lovely presents. Mrs. Clara Poye, Mrs. W. O. Kennard, Mrs. Will Hobbs and Mrs. Geo. C. The Epworth League of the East Eliot Methodist church recently tendered a variety shower to Miss Helen Smith at the pleasant home of Mr. and Mrs. Charles Smith in honor of her approaching marriage to Mr. Leon Goodrich. There were about thirty present and the evening was spent in the enjoyment of games, and vocal and piano selections were rendered. Miss Helen Smith was the recipient of many beautiful presents, including china, silver, linen and many other useful articles. A beautiful lunch was served, after which the guests departed, extending to the bride-to-be their best wishes for a long and happily wedded life. Miss Smith came to Eliot from Nashua, N. H., several years ago and by her winning ways has made many friends, who are pleased to have her marry and settle down in this section. He has a host of friends, who are glad to know that he has decided to settle down in his home town, and who wish him success.

STATE EDUCATIONAL MEETING.

In connection with the Y. M. C. A. educational service for ex-soldier boys a meeting of the State Educational Committee was held Friday when forty applications from college students for financial aid were considered. These applications were classified according to merit, based on length of service, financial need and student ability. Every dollar available was given away in scholarship awards by the committee. Owing to the great demand for this form of financial assistance, it has been impossible to respond to every appeal or to give the applicants as large amounts as the committee would wish. However, grateful students everywhere are receiving just the assistance required to prevent financial embarrassment, and the "Y" is undoubtedly doing a splendid piece of work for the student life of the country. The executive officers have received expressions of great appreciation, and, owing to the great need, special efforts are being made to secure additional funds to carry on this educational program. Therefore, while the Y. M. C. A. is unable to make any definite promise, it is quite possible that applicants who have not yet been successful in securing scholarships may hope to receive assistance if these additional funds are secured.

In addition to the assistance offered college students, there is a general scholarship fund controlled by local committees throughout the state from which ex-soldier men may be helped in every possible way to improve their education. Y. M. C. A. officials and members of the local committee are most anxious to get in

touch with ex-soldier men everywhere in order to offer them assistance in securing practical courses in trade, business administration, agriculture, and preparatory studies. Should circumstances prevent attendance at either day or evening classes, there are Home Study Courses which offer just the opportunity needed for educational advancement. A bulletin is issued from New York describing correspondence courses offered in the greatest variety by the United Y. M. C. A. schools.

Every ex-soldier man who desires to improve his mental training should put himself at once in touch with this Y. M. C. A. educational service.

P. H. S. JUNIORS WIN SUCCESS IN CLASS PLAY

Present "The Rejuvenation of Aunt Mary" Before Large Audience.

The annual play of the Junior class of the High school was held on Friday evening at Assembly Hall and it was in every way a great success. The three act comedy "The Rejuvenation of Aunt Mary" was presented by a competent and well coached cast, and the work of the young people was greatly enjoyed by the large audience present.

Miss Pauline Taylor had the role of Aunt Mary and made a delectable hit with her impersonation of the character, and kept the audience in a merry mood with the amusing situations and her witty sayings. Her make-up was clever and she well acted the part of the kind-hearted but outspoken elderly aunt. Miss Marjory Byringham as Lucinda, the maid of Aunt Mary, took her part well and caused no little fun for the audience and the part of Betty taken by Mary Perry was especially clever.

Harry Runney well acted the part of Jack and William White as Jack was very good, while all the others of the cast aided in making the play the success it was.

The stage settings were especially attractive and the furniture was loaned for the occasion by Margeson Brothers. The first act showed the living room at Aunt Mary's home in the country with its furnishings of half cloth, braided rugs on the floor and crocheted tidies on the chairs. The second act represented the Barnett library in New York and this was furnished with handsome hangings, bookcases filled with books, library chairs, etc. Here the young people gave Aunt Mary a warm reception and had an elaborate dinner in her honor, followed by an automobile ride. The third act showed the living room of Aunt Mary's country home again and the owner lonely after the gaiety of New York. She determines that she will never be happy again in the country and buys a home in New York. After her nephew Jack's difficulties are straightened out he and Betty marry and all ends happily.

The musical program added much to the success of the entertainment. The High School Orchestra, led by Ernest Bilbruck, gave selections before the play began and between the acts and every number was well rendered and appreciated by the audience. The musical program also included three special solos, a song by Miss Hazel Twombly, cornet solo by Philip Rugg and a violin solo by David Cohen, all of which were creditably given. The pupils deserve much praise for their clever work and a good sum will be netted from the same as the hall was crowded to the doors.

During the evening there was a sale of home-made candies etc. and the entire evening was one of pure enjoyment.

The following is the cast:
Aunt Mary Pauline Taylor
Jack Denham Harry Runney
Betty Burnett Mary Perry
Bob Burnett Edgar Baker
Michelle John Neville
Claver Kenneth Young
Joshua William White
Lucinda Marjory Byringham
Mr. Stebbins Denton Hoyt
The Girl from Kalamazoo Eleanor Jones
Daisy Mullens Dorothy Brooks
Eva Orintha Chitt
James David Schurman
Messenger Boy Francis Plinkham
David Rockman business manager
and Harold Bridle stage manager.

MANY PALATIAL HOMES OFFERED TO WILSON

Washington, April 17.—With every section of the country suffering from a dearth of living quarters, profiteering landlords and get-rich-quick real estate sharks, there is one man who has such a large number of prospective homes that he may be said to have as long as he desires that he is having great difficulty in making a selection. This man is President Wilson, who since he became known that he has recovered sufficiently from his illness to leave Washington, has received plenty of offers of the free use of the most magnificent country homes in the United States.

Each day brings a new flood of offers from every section of the country and it is understood that there is hardly one of the show places in the whole United States that the President might not have if he wanted it.

It would take days, according to officials at the White House, to compile a list of the offers that have been made to the chief executive, among the more prominent proposals in addition to Mr. Crane, who have urged the

President to occupy their homes during summer months are George W. Vanderbilt, whose estate at Asheville, N. C., "Biltmore," is considered one of the finest in the South, and Charles W. Morse who has a magnificent estate at Saratoga Springs, N. Y.

THE HERALD HEARS

That the Portsmouth Fire Department is making good headway in motor equipment.

That when the new station is completed there is likely to be some shifting in the positions of the permanent men.

That Portsmouth is certainly some place for secret organizations. About everything on the calendar can be found here.

That several branches of industry in the Boston and Maine system will hold important meetings on Sunday.

That the Portsmouth hospital treated 1012 patients during the year 1919.

That 191 births occurred during that year and 47 deaths.

That the Lexington, Ky., Leader announced that George Hush, colored, was given a life sentence for shooting Lela Garrett, his step-daughter, and five more for beating up his wife.

That it appears to be a question where George will serve that extra five years.

That "overalls" clubs are starting up in many of the big cities, especially in the west.

That both men and women are adopting the rig.

FARMERS OPEN FIGHT ON CHANGE OF TIME

Seek to Have Public Service Body Restrain B. & M. From Changing the Schedule.

Concord, April 17.—The farmers of the state will ask for a hearing before the Public Service Commission in opposition to the proposed action of the Boston & Maine railroad in retreating all trains ahead one hour, beginning with April 25.

State Master Rogers of the Grange was in conference with Commissioner of Agriculture Pelletier at the State House today and they requested of the attorney general an opinion as to the power of the commission to compel the railroad to desist from the proposed change in its schedule.

The basis of the farmers' objection lies in the fact that the change would require them to get their milk and other products to the cities an hour earlier than at present. They claim that 2500 children who take early morning trains to reach their schools also would be inconvenienced.

E. CONNORS WRITES FROM SAN DOMINGO

His many friends at the Atlantic Corporation and at the Shipyard yard will be pleased to hear from him.

Barahona, March 30, 1920.

Dear Mr. Hartford:

Well, Mr. Hartford, I suppose you thought I had forgotten you by this time, but I have not.

I left New York with five other fellows on Dec. 17th and arrived in the wilderness at Barahona on Jan. 1, 1920. This sure is a great country, Mr. Hartford, that is for climate, for the thermometer registers about 82 degrees every day.

This is the first day I have been in the office since the 1st of February for on Feb. 3rd I was taken sick with typhoid fever and have been in the hospital ever since. I was out on the piazza of my bunk house just a few moments ago and found your name on my address book, so I hurried over to the office to drop you a few lines. Believe me it was some two months I put in the hospital. I will not go to work for a few weeks yet and am just settling into my feet.

Will write you later and tell you about some of the country around here. Regards to all the office staff and others that I know. From you are well for you sure must have had some winter.

Yours,
J. E. CONNORS.

MORE STRIKE BREAKERS AT SOMERSWORTH

Sleep and Eat in Shoe Factory; One Arrest on Friday.

Nothing very exciting happened in the strike situation at Somersworth on Friday, other than the arrival of 15 or 20 more strike breakers and the arrest of one man charged with carrying a concealed weapon.

The Warren Shoe Company has placed a large number of cots in the factory where the new hands from other cities will sleep and eat. The building is guarded night and day by the extra police from Manchester.

It was reported that one of the two women arrested on Thursday by one of the Somersworth police, will bring suit against the officer as the result of some trouble that occurred in the street.

The people of Somersworth believe that the extra police will be needed for quite a while to preserve order. They fear that trouble will break out again in case the police are withdrawn. The Warren Company is said to have secured about forty-five non-union workers in all since they started to break in the strike and conduct an open shop. The union shoe workers say they will win out regardless of how long the strike is in progress.

At present a collection is being taken up among the mill hands and those of other manufacturing plants of the city to aid those engaged in the strike and that quite a good sum will be realized.

A COSTLY ATTRACTION

Mr. Dow, who is bringing to this city the very best in dance orchestras, has completed arrangements with the Pouchy & Keefe orchestra of Milford, Mass., for a series of eight dances during April, May and June, the price of the engagements aggregating \$1100.00. The first of the series will be held in Freeman's hall, Friday evening, next week and from the talk about town it will be one of the biggest attended events of the season. This team played here about six weeks ago, leaving a 50-50 impression in comparison with McEnelly's. It will be interesting to hear opinions as to the merits of the two orchestras, for with Pouchy & Keefe on Friday evening and McEnelly the following Tuesday the engagements are so close, the music will be fresh in the minds of the patronage. After Friday the team is booked for two Tuesday dates in May and every Tuesday in June.

Quality in clothes means either extravagance or economy according to whether it's low or high grade. When you "slide into" one of our Stein-Bloch or some other of our high grade makes of suits you land on the "home plate" of economy. A little higher in price than mediocre makes they give practically double the wear of the ordinary suit. A big showing here now of "big makes."
